

SALESFORCE PROJECT IMPLEMENTATION PHASES

MediSmart CRM – AI-Powered Healthcare Appointment & Patient Follow-up CRM

Phase 9: Reporting, Dashboards & Security Review

Phase 9 focused on creating advanced reporting and dashboards for doctors, receptionists, and managers, along with a thorough security review including field-level security, sharing settings, and audit trail tracking

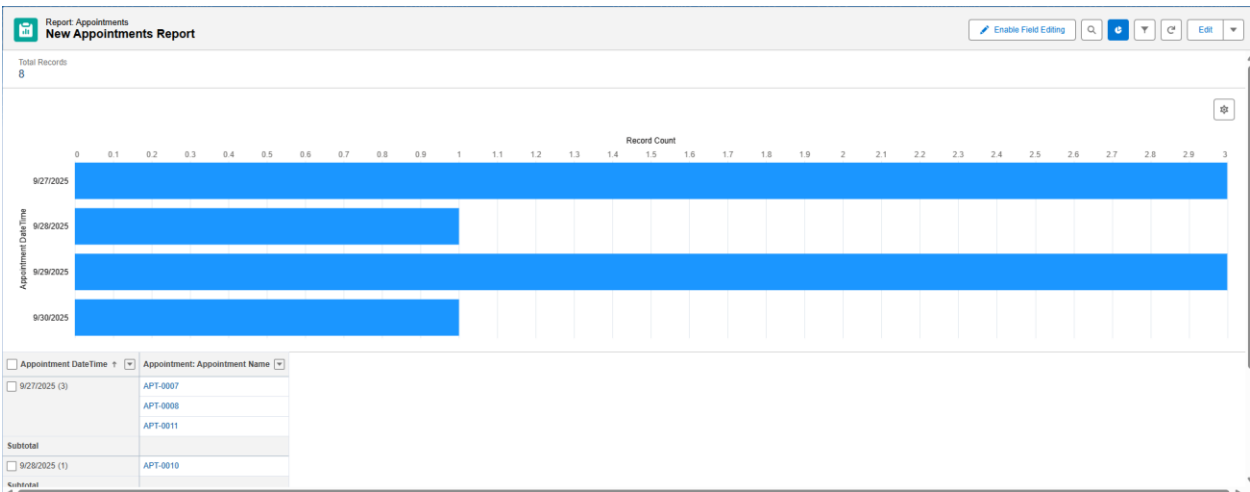

Reports: Appointments Report: Show total appointments by Doctor, by Date, or by Visit Type.

Setup:

Setup → App Launcher → Reports → New Report → Select Object (Appointments / Patients). Add filters (date, doctor). Group by Doctor

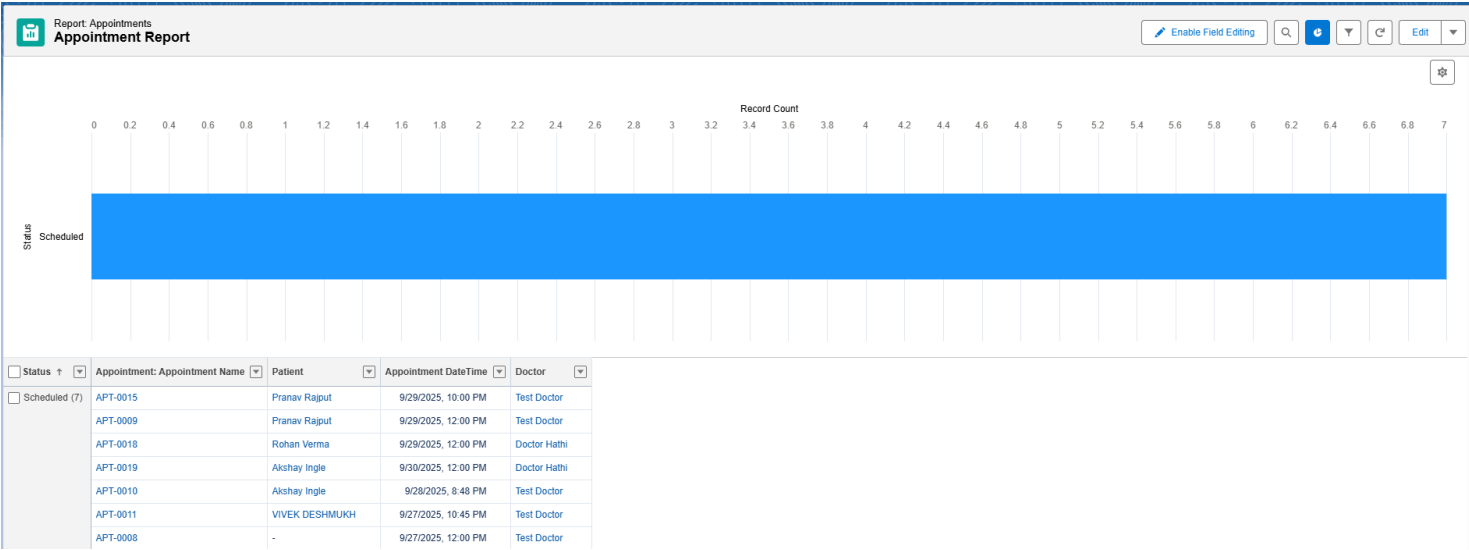

New Appointments Report:

This report displays a horizontal bar chart visualizing the number of new appointments scheduled per day. The data covers four days, from September 27 to September 30, 2025, showing the highest number of appointments occurred on the 27th and 29th.

The table lists the seven appointments scheduled between September 27th and September 30th, 2025. For each appointment, you can see details such as:

- Appointment Name: A unique identifier like *APT-0015*.
- Patient: The name of the patient, for example, *Pranav Rajput*.
- Appointment DateTime: The specific date and time of the booking.
- Doctor: The doctor assigned to the appointment, such as *Test Doctor* or *Doctor Hathi*.

New Doctor Report: Report Highlights

The key metrics from the report are:

- Total Doctors: 2
- Combined Experience: 15 years
- Total Available: 2 (both doctors are currently available)

Report: Doctor

New Appointment with Doctor Report:

Here is a summary of the information presented:

- Cardiology:
 - Appointments: 2 appointments (APT-0019 & APT-0018).
 - Doctor: Both are with Doctor Hathhi.
 - Doctor's Experience: 10 years.
- General:
 - Appointments: 6 appointments in total.
 - Doctor: All are with Test Doctor.
 - Doctor's Experience: 5 years.

Dashboard:

Sharing Settings

- Ensured **Appointments** are shared with Assigned Doctors and Manager roles automatically.
- Verified **Patients** remain private while **Doctors** are Public Read Only.

Field-Level Security

- Restricted sensitive patient fields (contact number, history) to only Doctors and Managers.
- Receptionists see only non-medical fields for privacy compliance.

Session Settings

- Configured session timeout to **2 hours** for added security.
- Enabled login challenges for unrecognized devices.

Login IP Ranges

- Set login IP ranges for internal staff to limit unauthorized access (optional if using Dev Org).

Audit Trail

- Enabled and reviewed **Setup Audit Trail** to monitor configuration changes.
- Downloaded Audit Trail logs for backup.
